MOSTASHEER

MOSTASHEER

ABOUT US

MOSTASHEER is a leading technology services provider, delivering business solutions to its customers. MOSTASHEER founded in 2009. MOSTASHEER delivers one of the industry's broadest portfolios of information technology and security solutions to customers in the manufacturing, financial, services, healthcare, Communications, Energy, transportation, and Consumer and retail Industries.

We differentiate ourselves in the IT marketplace by providing outstanding service, Innovation and Industry Thought Leadership.

MOSTASHEER Company is committed to our customer value, to our professionals, to being direct, to operate responsibly and ultimately, to win continuously and to differentiate from other Competitors by providing outstanding service, innovation and industry thought leadership.

MISSION

" MOSTASHEER provides the experiences and the expertise to deliver the essential infrastructure for organizations to build their digital future, transform IT and protect their most important asset, information. We adapt the information technology innovations in Data Management, Protection and Security, built upon a modern data center infrastructure that incorporates industry-leading converged hyper-converged infrastructure, servers, storage, backup, disaster recovery and cloud technologies. "

VISION

" To become a globally recognized, respected, and reliable leader in IT Business Solution and Services inspiring a new model of Professional Services, hence becoming the partner and employer. Leading in providing a IT solution in our Region. "

STRATEGY

" building capacities and encouraging innovation; fighting corruption; ensuring cybersecurity; and promoting MOSTASHEER's position at the regional and international levels. "

ADDED VALUE

" MOSTASHEER is committed to long-lasting business relationships with our customers, employees and partners and we value building these relationships based on trust, honesty and professionalism, via after selling services and technical support. "

CCTV Surveillance systems

From 'plug and play' to the latest in high-speed dome, motion-tracking, IP cameras to the basic Digital Video Recorder (DVR).

From the most advanced, Analytics DVR, able to recognize faces, number plates, objects lost, direction of merchandise etc. to local viewing and remote viewing (Internet based or Local Area Network), for homes to companies.

We have engineers specialized in installing surveillance camera systems in all places in Egypt, where we provide high-quality cameras with international standard, and the camera's features.
